

# LEAP™.

High performance  
precursors from Linde  
Electronics.

At Linde Electronics we understand the changing material requirements of the semiconductor industry. That's why we are introducing LEAP™, a range of advanced precursors for high-k, metal gate and other emerging applications. LEAP™ is backed by our extensive materials expertise and global supply chain. So when you think you've reached a barrier in your technology roadmap, LEAP™ over it.

## **LEAP™ – Linde Electronics Advanced Precursors** **Your roadmap, our precursors.™**

Linde Electronics offers customers around the world an extensive selection of high purity materials, expert services and innovative technical solutions for semiconductor, solar cell, & TFT-LCD manufacturing.
